### Learn how to use Power Tools

This class is a great way to become familiar with some basic power tools. You will learn the process of how to build a toolbox from start to finish, including painting and waxing your final project. You will make decisions on basic size and function of the toolbox and hopefully go home and create many more like it. To register, fill out this form and mail along with your \$50.00 non-refundable but transferable deposit to the address shown above. Any questions, please call us at 847-382-4923.

**Class Price \$110.00**

Price includes a supply kit valued at \$20!

**Class Dates:**

Class dates can be scheduled at your convenience. Call the warehouse to schedule a session

Class size is limited, but if you would like to attend with a friend, please send in your registration forms together.
